

What impact could fracking have on our farmers?

FRACKING

commonly asked questions

www.frackfreeisle.org

Does fracking threaten our water supplies?

Is this the future of our countryside?

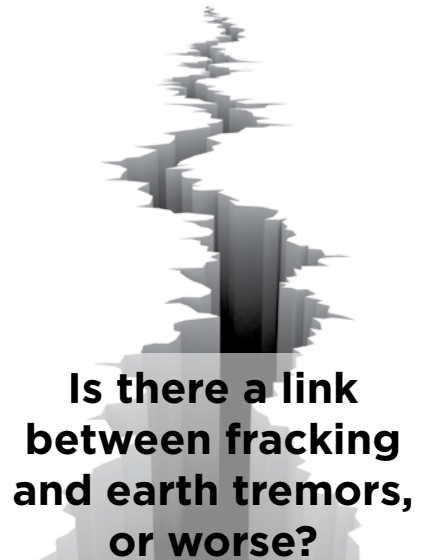

Could our green and pleasant land end up looking like this?

Did you know that fracking can pose a serious pollution risk? That it has been linked with serious health implications?

Don't forget the huge number of tankers required for each frack!!

Is there a link between fracking and earth tremors, or worse?
